

Optional Homework

In this unit we discuss collaborative services and building a therapeutic rapport. Think about the team members you have the opportunity to collaborate with for your early learners. Are there ways that you can make your services more systematic? Do you have a student on your caseload who is very limited in what they enjoy? Would this student be a good candidate for a preference assessment.

1. Do you have a student who would benefit from more collaborative services?
2. What steps can you take to make these services more collaborative?
 - a. Ideas for collaboration
 - b. _____
 - c. _____
 - d. _____

List students who may benefit from a preference assessment:

4. Print off the included preference assessment and take notes with the above students.
