

Modified Memory

All of the cards are face up. Put out a smaller array of cards. The student picks a card and matches it to the identical card.

Simon Says

It is always Simon Says. Each direction starts with Simon Says.

Uno

Put faceup one card of each color. The students pick a card and match it to the correct color. For very early learners I take out all of the special cards (reverse, skip, etc...)

Musical Chairs

All of the chairs stay put, no chair is ever taken away. I tell students the directions “when the music is on we walk, when the music stops we sit down.”
