

Optional Homework

In this unit we discuss data collection systems. One of the strategies discussed is using a task sheet. Use this guide to take actionable steps with your caseload to implement this strategy.

1. Identify a student who is working on a skill in which you could use a task sheet to keep data on specific examples addressed.
2. What skills are being addressed that would benefit from using a task sheet.
 - a. _____
 - b. _____
 - c. _____
 - d. _____
 - e. _____
3. Print off the correct amount of task sheets and include specific targets that are addressed for the learner.
4. Use the task sheet information to write the student progress note, iep or other applicable reports.
